

# PASS THE TAX ON SODA & SUGARY DRINKS

**Dear Conference Leader John Sampson,**

We have the opportunity to help New Yorkers prevent and fight obesity, diabetes and heart disease by passing the tax on soda and sugary drinks.

The tax will help reverse the trend of obesity among youth, which has tripled over the past three decades. The tax could save the state billions of dollars, since obesity-related medical expenditures cost the state nearly \$7.6 billion a year.

**I urge you to support the tax, because a few extra pennies will make a world of difference.**

# PASS THE TAX ON SODA & SUGARY DRINKS

**Dear Speaker Sheldon Silver,**

We have the opportunity to help New Yorkers prevent and fight obesity, diabetes and heart disease by passing the tax on soda and sugary drinks.

The tax will help reverse the trend of obesity among youth, which has tripled over the past three decades. The tax could save the state billions of dollars, since obesity-related medical expenditures cost the state nearly \$7.6 billion a year.

**I urge you to support the tax, because a few extra pennies will make a world of difference.**
